

# F-Speed Reader

## DESCRIPTION

After over 12 months in its development, CoGri Group has produced a measuring device to the same exacting standards in accuracy and repeatability as the other Face digital devices used for checking the UK and EU standards.

The F-Speed Reader is used for checking a floors surface regularity to the ASTM E 1155 standard producing accurate F numbers at incredible speeds.

## Surveying floors and producing reports couldn't be quicker or easier!

Simply program the test run length into the mobile application and the F-Speed Reader will self propel to that required distance.

After each run all the required data is collected digitally and then transferred wirelessly, via Bluetooth to the mobile device, then the next run can start. When the whole of the floor is surveyed, the data can be transferred to your laptop / PC. You will then be able to open up the data files with the Face Digital Application to analyze the data and produce a full report at a touch of a button.

## TECHNICAL SPECIFICATIONS

- Weight: 20Kg
- Rechargeable Battery 12v 4.5Ah NiMh
- Aluminum Frame
- Dimensions:
- Box L-97cm x W-45cm x H-16cm
- Assembled L-72cm x W-35cm x H-20cm

## SOFTWARE

- PC Application - Windows 7 and above.
- Mobile Application - Android 6.0 and above.

## THE COMPLETE KIT COMPRISES OF

- Robust carry case
- F-Speed Reader Main Body
- Motor Drive Assembly
- Motor Drive Cable
- Stabilizing Bar
- Stabilizing Wheel
- Spanners (x2)
- Charger
- Steering Lead
- 4mm Shim
- USB Drive (Includes software installers and operators manual)

## PRICE: On Application

### Includes:

- 1 day training at place of manufacture.
- 12 Month return to base warranty\*
- Free telephone support assistance.

### Delivery not included

- \*this does not include the battery which has a 6 Month return to base warranty.
